

TRIUMPH

Tyre Selector

Information

Warning

Use the recommended tyres ONLY in the combinations given. Do not mix tyres from different manufacturers or mix different specification tyres from the same manufacturers as this may result in loss of motorcycle control and an accident.

Warning

The use of dual purpose tyres will result in reduced motorcycle stability. Always operate a motorcycle equipped with dual purpose tyres at reduced speeds. The permissible maximum speed (as shown below) must be indicated by a sticker, positioned so that it is clearly visible to the rider. Operation of the motorcycle above the permissible maximum speed may result in loss of motorcycle control and an accident.

Note:

The tyres listed in this tyre selector are correct at the time of publication for motorcycles in current production only. Tyres for motorcycles no longer in production are listed for information purposes only and were correct only at the time production ceased.

Triumph Motorcycles Limited reserves the right to list an alternative tyre for any motorcycle at any time, but has no such obligation to list alternatives where production of a motorcycle or tyre has ceased. Tyre production for any tyre listed may cease at any time and is beyond Triumph Motorcycles Limited control. Inclusion of a tyre in this tyre selector is not a guarantee of tyre availability.

No liability can be accepted for any inaccuracies or omissions in this publication, although every possible care has been taken to make it as complete and accurate as possible.
